Read the following passage and answer the given questions.

Road traffic is an essential part of modern life, enabling transportation and commerce. However, it also poses serious risks, including rising accidents, life-threatening injuries, and increasing road rage. Reckless driving, poor infrastructure, and inadequate law enforcement have turned roads into dangerous spaces where lives are lost every day. Addressing these issues requires collective action to **restore** discipline and ensure safer travel for all.

One of the most alarming consequences of uncontrolled traffic is the high _____ of accidents. Speeding, distracted driving, and driving under the influence are major contributors to fatal crashes. Many drivers neglect basic safety rules, such as wearing seat belts or maintaining safe distances, further increasing risks. Poorly maintained roads and insufficient traffic signals worsen the situation. Victims often suffer severe injuries, including fractures, paralysis, and brain trauma, leaving them permanently disabled. The financial burden of medical treatment and loss of livelihood devastates many families. Hit-and-run cases, where offenders escape accountability, highlight the urgent need for stricter enforcement.

Road rage is another growing issue threatening public safety. Frustration due to traffic congestion often leads to aggressive behavior. In extreme cases, individuals resort to violence, sometimes resulting in physical assaults or even **shooting** incidents. What begins as a minor dispute can escalate into a crime, endangering both motorists and pedestrians. A lack of emotional control and failure to resolve conflicts peacefully worsen the situation.

Traffic police play a crucial role in addressing these challenges. Beyond issuing fines, they regulate traffic, prevent violations, and promote road safety. Regular patrolling, strict penalties, and increased surveillance through cameras can help reduce accidents. Public awareness campaigns on responsible driving are also necessary.

An effective way to restore safe driving habits is through celebrity-endorsed road safety campaigns. Celebrities influence public behavior, and their involvement can encourage drivers to follow traffic rules. Their participation in awareness programs and social media campaigns reinforces responsible driving. To combat road dangers, a combined effort from the government, law enforcement, and the public is essential. By improving infrastructure, enforcing laws, and promoting responsible driving through celebrity campaigns, society can work toward safer roads for everyone.

 - (5) More than four
-

Question 78

Which element is 6th to the right of the 9th odd number from the left end?

- (1) 3
 - (2) 4
 - (3) 8
 - (4) 2
 - (5) 7
-

Question 79

How many even numbers are immediately preceded by an odd number and immediately followed by an even number?

- (1) One
 - (2) Two
 - (3) Three
 - (4) Four
 - (5) Five
-

Question 80

What will the sum of 7th element from left end and 4th even number from right end?

- (1) 11
 - (2) 10
 - (3) 13
 - (4) 8
 - (5) 9
-

In these questions, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer.

Question 81

Statement:

$$\text{I. } B \geq O > M = E > L < D > Z$$

Conclusions:

- I. $O \leq Z$
- II. $B > D$

- (1) Only conclusion I is true
 - (2) Only conclusion II is true
 - (3) Either conclusion I or II is true
 - (4) Both conclusions I and II are true
 - (5) Neither conclusion I nor II is true
-

Question 82

Statement:

$$\text{I. } E < G < J \geq N = B > U < P$$

Conclusions:

- I. $J > U$
- II. $P > G$

- (1) Only conclusion I is true
- (2) Only conclusion II is true
- (3) Either conclusion I or II is true
- (4) Both conclusions I and II are true
- (5) Neither conclusion I nor II is true

Question 83

Statement:

$$\text{I. } Y < K = S \geq J < I > E < C \leq D$$

Conclusions:

$$\text{I. } K < D$$

$$\text{II. } S \geq D$$

- (1) Only conclusion I is true
- (2) Only conclusion II is true
- (3) Either conclusion I or II is true
- (4) Both conclusions I and II are true
- (5) Neither conclusion I nor II is true

Study the following information carefully and answer the question given below.

Eight people - H, M, A, G, K, O, C and D are sitting around a square shaped table in such a way that four of them sit at four corners of the table while remaining four sit in the middle of the four sides, but not necessarily in the same order. The one who sits at the four corners faces the center while those who sits in the middle of the sides face outside. K sits immediate left of H. G sits second to the left of K. Three people sit between A and M. M sits immediate left of G. Only two people sit between H and O. O sits at one of the corners but does not sit adjacent to M. D sits third to the left of G.

Question 84

Who among the following people sits opposite to G?

- (1) D
- (2) C
- (3) O
- (4) M
- (5) A

Question 85

What is the position of O with respect to M?

- (1) Third to the left
- (2) Third to the right

- (3) Fourth to the right
 - (4) Fifth to the right
 - (5) Second to the right
-

Question 86

How many people sit between A and G when counted from the right of A?

- (1) One
 - (2) Two
 - (3) Five
 - (4) Three
 - (5) Four
-

Question 87

Four of the following five are alike in a certain way and thus form a group. Find the one who doesn't belong to the group?

- (1) M
 - (2) H
 - (3) A
 - (4) D
 - (5) K
-

Question 88

Which among the following statement(s) is/are true?

I. C sits second to the left of G.

II. G sits opposite to A.

III. Two people sit between M and K when counting from left of M.

- (1) Only I
 - (2) Only III
 - (3) Only II
 - (4) Both I and III
 - (5) All I, II and III
-

In the questions below, some statements are given followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the statements and decide which of the given conclusion logically follows from the statements.

Question 89

Statements:

- I. All key is rubber.
- II. Only a few rubber is dot.
- III. Some dot is paper.

Conclusions:

- I. Some key is not paper.
- II. No paper being rubber is a possibility.

- (1) Only conclusion I follows
 - (2) Only conclusion II follows
 - (3) Either conclusion I or II follows
 - (4) Neither conclusion I nor II follows
 - (5) Both conclusions I and II follow
-

Question 90

Statements:

- I. Only soil is plant.
- II. Some soil is feather.
- III. No feather is color.

Conclusions:

- I. All feather being soil is a possibility.
- II. Some soil is not color.

- (1) Only conclusion I follows
 - (2) Only conclusion II follows
 - (3) Either conclusion I or II follows
 - (4) Neither conclusion I nor II follows
 - (5) Both conclusions I and II follow
-

Question 91

Statements:

- I. Only a few money is scale.
- II. All scale is graph.
- III. Some graph is brick.

Conclusions:

- I. No brick is scale.
- II. All money is graph.

- (1) Only conclusion I follows
 - (2) Only conclusion II follows
 - (3) Either conclusion I or II follows
 - (4) Neither conclusion I nor II follows
 - (5) Both conclusions I and II follow
-

Study the following information carefully and answer the question given below.

A certain number of people are sitting in a row facing north. A sits fifth to the left of B. E is an immediate neighbour of B. F sits second to the left of A and second from one of the extreme ends of the row. Only one person sits between B and G. E is not an immediate neighbour of G. K sits fourth to the right of G. No one sits to the right of K. Five people sit between K and T.

Question 92

Who among the following people sits fourth to the right of T?

- (1) E
 - (2) G
 - (3) A
 - (4) F
 - (5) B
-

Question 93

Who among the following sits seventh from the left end of the row?

- (1) B
 - (2) G
 - (3) E
 - (4) T
 - (5) Unknown person
-

Question 94

How many people are sitting in the row?

- (1) 13
- (2) 14
